

The institutional Strategic/ perspective plan for the session of 2022 - 23

Installation of Internet fibre connection.

In this session, we installed BSNL free internet fibre connection for students. They have easy access to online study materials e.g., e-PGPATHSHALA, SWAYAM, MOOCS, N-LIST etc. With the help of free WI-FI, it will be easier for teachers to evaluate students through online platforms e.g., Google Docs.

Plantation on old college campus currently which is science and sports building.

Under the guidance of National Service Scheme Program Officer PK AMILA, the volunteers of the National Service Scheme planted various trees on the old campus. After that, the message of environmental protection was given by planting various plants.

Repairing work on the old campus and new campus.

The college has been established by MP Government on 17th November 1989. On 7th November 2009, the college building has been constructed by the PWD department of CG. Henceforth, no repairing work has been done in the girl's and boys' washrooms and the old campus. In this session, a lot of repairing work was done on the old campus and the new campus the doors of the girl's and boy's washroom was broken in the new building, it was replaced with new one and in the old building new girl's washroom was constructed.

Organisation of Blood donation campaign.

After the establishment of the college, this is the first time, that a blood donation camp has been organized by the collaboration of NSS, RED RIBBON, IQAC and GOVT MEDICAL COLLEGE RAJNADGAON in the college. On this occasion, more than 100 students participated in the blood donation camp and 73 students, teachers and staff had been donated blood and a message was given “One bag of blood can bring back one from the dead.”

Installation of sanitary napkin vending machine.

In the 2022- 23 session, the institution has installed a sanitary pad vending machine in the girl's washroom in the college. The benefit of installing sanitary napkin vending machines in the college is that it will help to increase the number of students who use these machines. This will not only help to make the environment cleaner but also reduce the number of bacteria that may be present on college grounds.

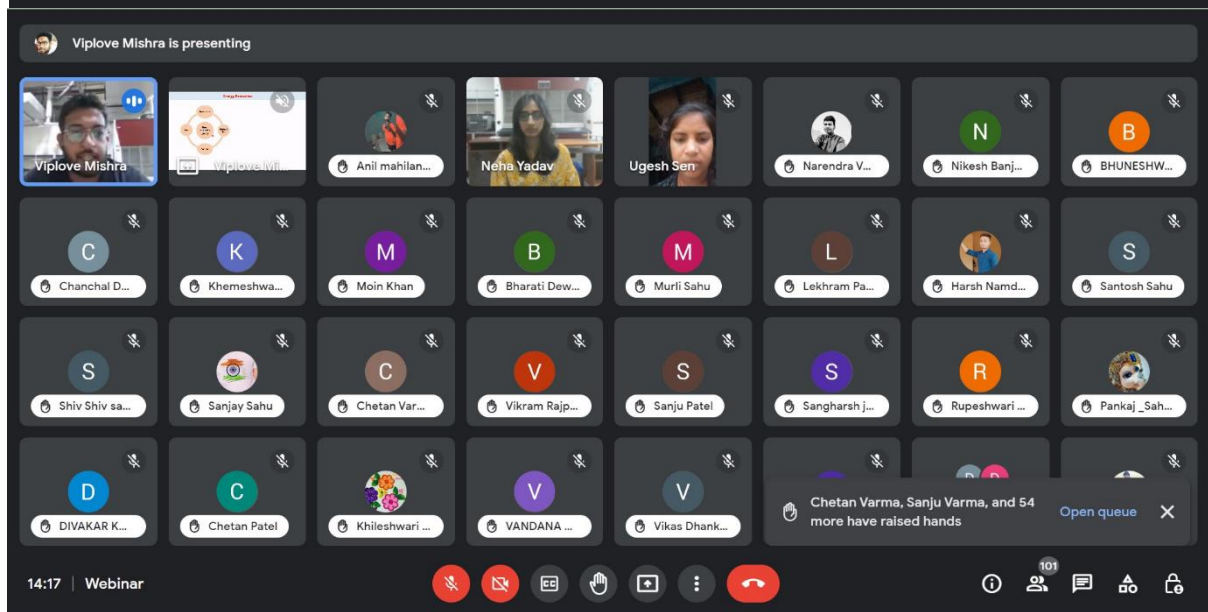

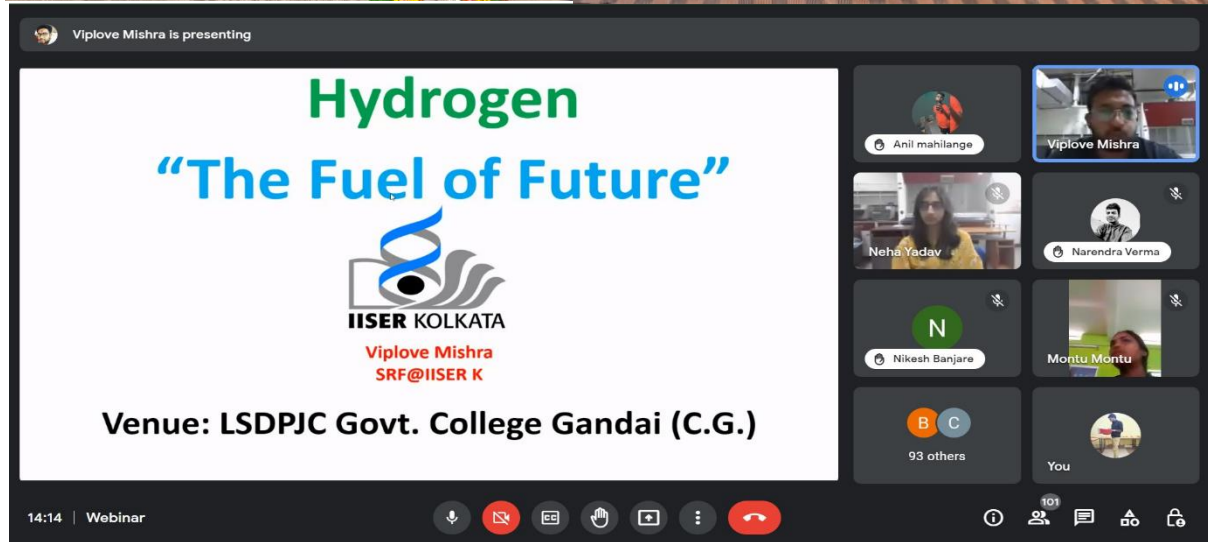

Construction of stage for cultural activities.

As an educational institute, every year many cultural programmes have been conducted by the students. For this, there is the requirement of a stage, where students perform their cultural activities and other programmes can be done.

Organize various activities for the holistic development of students.

For the holistic development of students, every year we organize various activities by various departments.
